B.Tech - Electrical Engineering

Indian Institute Of Technology, Delhi

linkedin.com/in/kartikey-agarwal-ba3a19201

Summary

IIT Delhi grad with 1+ yrs building **fintech, agentic-AI-driven** & e-commerce products with business impact. Shipped platforms end-to-end, enabled data-driven decisions, **collaborated across product, engineering & analytics**. Seeking consulting/product roles to apply technical depth, data insights, strategic problem solving.

Education

Degree/Certificate	Institute/Board	Year
Product Management Fellow	NextLeap	Feb, 2026 - Present
B.Tech.	Indian Institute of Technology, Delhi	2020 - 2024

Scholastic Achievements

- **Joint Entrance Examination**, **AIR 575** in JEE Adv. & **1411** in JEE Mains among **11 Lakhs** candidates, India *2020*
- **Regional Mathematical Olympiad**, Appeared for RMO's **3rd stage Indian National Mathematical Olympiad** *2017*

Experience

- **Ciroos.ai | Member of Technical Staff**, Multi-Agent AI SRE Teammate automates responses; *India | Jul.-Sep. 2025*
- **Zinc Money (Platform for global banking, AI, and higher education)** *Jun. 2024 - Jun. 2025*

  Software Engineer Bengaluru, India
  - Built scalable, **animated & responsive** frontend systems and data-aware interfaces with **React, Next.js & TypeScript** for payment, wealth & AI-driven products for **Investment Advisory & Brokerage & Payment Services**
  - **Designed & implemented** backend services in **Python(FastAPI)** for cross-border BBPS-BOU payment system collaborating with **NPCI**; data pipelines with **NoSQl, API** integration, **CI/CD & analytical tracking**; **75 tests** passed
  - Enabled quick product iterations through **full-stack** integration, microservices & **deployment** for innovation in global financial systems, integrating **analytics & event tracking** for insight generation while adhering to **Agile** workflows
- **SustainMall (Sustainable E-commerce website)** *Jul. 2023 - Aug. 2023*

  Full-Stack Web Developer Intern | ReactJs, Next.js, Node.js, MongoDB, CI/CD Remote
  - Co-developed category, product pages, auth & checkout pathways, aligned with business & user engagement metrics
  - **Architected** backend with RESTful **APIs**, **MySQL** for personalised recommendations; **Analytics-ready data** capture
  - **Led** ideation, coding standards, optimization, testing; **Collaborating cross-functionally & driving product outcomes**

  Awarded Letter of Recommendation by Project Lead & CEO for 2× growth, excellent teamwork & measurable results
- **The Legal Trust Network (Comprehensive Legal Platform)** *May 2023 - Jul. 2023*

  Golang Backend Development Intern | Go, Echo, MySQL, Git Remote
  - Developed pagination, **callbacks, event reminders** improving user engagement by **3×**, ensuring scalable performance
  - Engineered database solutions & RESTful APIs; Tested via Postman, supporting **data flows & backend analytics**

Skills/ Tools

·Product strategy & execution · Data modeling, ETL & Data Analytics (SQL, metrics, Tableau/Power BI) ·Testing A/B & experimentation · Product analytics & user behavior insights · Cloud & DevOps (CI/CD, microservices) ·AWS/GCP · Agentic-AI / ML fundamentals · Leadership & problem solving · Fintech & e-commerce domain fluency

Projects

DSCoin: Authentic Cryptocurrency System *(Prof. Amitabha Bagchi, IIT Delhi)* GitHub *Aug. 2021 – Nov. 2021*

- Implemented **blockchain** for transaction validity using **collision-resistant functions(SHA)**, e-sign & Merkle Tree, enabling **tamper-proof** & digital **certificate management**; Demonstrating **secure systems design** & analytical rigor

Real-Time Multiplayer Maze Game (Reliving) *(C++ (libraries), SDL2, OpenGameArt)* *Mar. 2022 – May. 2022*

- Used **TCP sockets** for real-time network play; addressed **latency, random movements & interaction challenges**

Efficient Fake News Detector *(Python, BERT, NLTK, Tokenization)* *May 2023 – Jun. 2023*

- Built using **NLP models** to detect misinformation; Used iterative learning for **accurate & user-friendly outcomes**

PrimusOS: AI-Enhanced Productivity System *(Python, NLP, GUI framework, sklearn)* *May. 2023 – Jun. 2023*

- Designed **AI assistant** boosting productivity with **user insight generation**, focusing on **usability & automation**

Extra Curricular Activities & Position of Responsibilities

•**Co-led 3** Winning Films, **Best** Play/Actor at Rendezvous; Core-team member of **Cultural & Dramatics Societies**

•**Events Coordinator**, NSS - Organized **10+ mega events**, managing logistics, **300+** volunteers, guest relations *(2023)*

•**Student Mentor, BSW** - Guided **4** freshmen in academics & leadership; **Core Team Member, UPHORIA** *(2022-23)*
